

What is COMOM?

The Colorado Mission of Mercy (COMOM) is a large-scale dental clinic that is held annually in a Colorado community.

The concept is simple: Create a two-day dental clinic in a large facility and open the clinic doors to the community. Dental services are provided to any person who cannot afford dental care. Patients are evaluated and treated based on their most urgent dental needs. Patients undergo dental treatments such as cleanings, fillings, root canals, extractions, and as time permits, preparation of flippers and dentures. The best part about COMOM is that this quality treatment is donated.

The 13th annual COMOM will be held in Glenwood Springs, Colorado.

**Glenwood Springs High School
Dental Clinic: October 4 and 5, 2019
Clinic set-up: October 3
Clinic take-down: October 6**

The Western Slope COMOM will build on experience from successful dental clinics held in other Colorado communities:

2007	Alamosa	2013	Greeley
2008	Loveland	2014	Henderson
2009	Brighton	2015	Canon City
2010	Colorado Springs	2016	Brush
2011	Brush	2017	Pueblo
2012	Pueblo	2018	Greeley

During the first 12 years of the program, COMOM has served more than **15,000 patients** and provided **\$13,000,000** in donated dental care.

Who should Volunteer?

COMOM needs 200 dentists to provide treatment at COMOM. In addition, hygienists, assistants, front desk staff, dental lab technicians, and an array of community volunteers are needed to make this event a success. Consider bringing your colleagues and team members to COMOM – it will be a life-changing event for them, as well as for the individuals they are helping.

VOLUNTEER!

- Dentists**
- Hygienists**
- Assistants**
- Front Desk Staff**
- Lab Technicians**
- Nurses**
- Pharmacists**
- Students**

Community Volunteers

Why Does Colorado Need COMOM?

Individuals across the state are in need of dental care. They are in pain, frustrated, without answers, and they hope that someone will be able to help them.

Several outstanding dental organizations offer nearly free dental services for children, for the elderly, for people with disabilities, for the homeless, and for people living with HIV/AIDS. Often adults who don't fit into these categories, who are without insurance, and who cannot afford dental treatment – are without dental resources.

For the past several years, COMOM has provided a way to help this situation.

While professionals on many fronts are working to establish long-term solutions to the problem of access-to-care, the remedies, in some cases, are years away. COMOM helps to fill the gap as long-term solutions are being developed and implemented.
